DETAILED ACTION

Priority

1. Applicant's claims of priority to applications 09168783 filed 10/8/98 and 08832613 filed 3/28/97 and 08955475 filed 10/21/97 and 60033491 filed 12/20/96 are acknowledged.

Election/Restriction

2. Applicant's election of the invention of group II in the response of 11/10/04 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The restriction requirement is made final. Claims 1-20 are withdrawn from further consideration.

Claim Rejections - 35 USC § 101

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 60-66 are rejected under 35 U.S.C. 101 as being directed at two differing and distinct statutory classes of invention-process and machine.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

ART UNIT: 3653

6. Claim(s) 61-66 is/are rejected under 35 U. S. C. 112 second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Applicant has written system claims with substantial method steps creating hybrid claims. Claims need be directed at system elements.

Consider subordinating the method steps with language such as claiming the system as capable of performing the steps or configured to perform the steps.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
